

"WE BUILD!"

K I W A N I S B U L L E T I N

Meeting of Oct. 9, 1979: Since the Chief Chairman In Charge Of Program Assignments chose to take a vacation and blow town; and since everyone else who might know don't choose to answer their 'phones, the best your reporter can do is report that it will be a "Surprise" program. That should tempt all of you to come.

Last Week: We welcomed the following guests; Bill Glass introduced by Bud Christensen, Key Clubber K. Eddinger introduced by Earl Osborne, Carl Asposti introduced by Bob Allen, and Bill Goff introduced by L. Werlitzer. Good seeing you, guys, and we hope that each of you will be coming each Tuesday noon, and sporting a membership pin.

The following were socked \$3.00 for having a birthday fall this week: Ted Kellogg, Al Barbieri, and Bruno Rodella (how come these 3 were sitting together-to commiserate?).

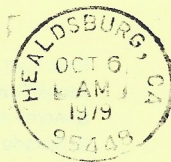

President Bob announced that all committee chairman who will hold office during his reign must meet at his house on Sunday, Oct. 7th at 9:00 AM sharp to receive instructions and exchange ideas. GOT THAT?

On Oct. 10th there will be a board meeting at President Bob's house starting at 7:30 PM. For those of you who need make-ups attending a board meeting is an excellent way of fulfilling the obligation.

A letter of thanks from the City of Healdsburg, addressed to Past President Bruno but read by President Bob, informed us that the City was grateful for the funds given by the Club to install new bleachers at Recreational Park.

Sec. Fran Brannern gave a Legion of Honor pin to Bob Malone for 25 years of service. He also gave a pin to Ted Kellogg for 14 years of perfect attendance (what's going on here? Didn't Ted get a pin at the Installation Dinner in recognition of his record?).

Lindsay Wurlitzer then introduced our speaker, John Duffy of the Board of Directors of the Sonoma County Farm Bureau, who updated us on the conflict between those in the agriculture business and those in the house building business. He noted that the Community should support the agri-business since it increases the over-all value of the County. Farmers pay 4 times as much in taxes as do householders. He then went on to explain how the County is trying to satisfy both those in agriculture and those in tract developing. All in all it was a most interesting (since all of us will feel the effects of this conflict, probably through taxes) talk.

"WE BUILD!"

KIWANIS BULLETIN
October 16, 1979

MEETING OF OCTOBER 16, 1979. As of this writing no program for this meeting has been contracted. However, don't let this fact deter you from attending; there will be a program and it will be of interest; YEW ALL COME, HEAR?!

MEETING OF OCTOBER 9, 1979. The following guests were welcomed with our own hospitable manner: Father Culligan, new pastor of St. John's, was introduced again by Art McCaffrey (trust artful Art to pave his way to heaven); Henry Corenilson, running for a seat on the Board of Education, also introduced by Art (YEP; Art butters his bread on all sides); Ed Matteoli was a guest of Bob Malone (some sort of collusion going on here, too); Geoff Davis and Scott Denim from the Key Club (both of whom noted that the Key Club needs a recruiting drive), and so much for our guests. We all hope that they had a good time and will come back for another visit, after which they will sign on the dotted line of a membership application.

Since this was President Bob's first whack at presiding as President, the usual fines were relaxed a bit; for example Waldo Iversen, Terrill Stringfellow, and Ernie Biasotti, all of whom were "birthday boys" today, were let off with a cut-rate fine of but \$3.00! Waldo, in recognition of all he has done for the Club in the way of service, was given a birthday present beautifully wrapped in newspaper. On opening it he disclosed a beautiful new golf club made of pure plastic (Gonsalves-did this thing come from your sto e?).

The following left the hall \$1.00 lighter of pocket for failing to autograph the aprons of the several new members we've taken in: C. Reuher, K. Hahn, J. Kochinette, B. Hayes, Ed Deas, L. Wurlitzer (his juke-box revenue will more than cover his expenditure), Paul Dix, Bob Malone, Tom Passalacqua, Elvin Jackson, and Frank Wilson.

Past President Bruno announced the upcoming trip to South Lake Tahoe on Nov. 10th. More details will be forthcoming next week. It was noted that President Bob was using a 2nd grade gavel; we wonder where the regular one is hiding. Speaking of President Bob, there will be a Board meeting at his domicile on Wednesday, Oct. 10th at 7:30 P.M.

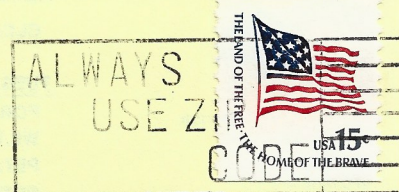

Gene Perkins was fined \$1.00 for letting the kitty fund go astray. Collusion amongst two other members is strongly suspected.

Ere the meeting adjourned a heated discussion over the type of programs to be presented during the coming year ensued. It was agreed that they should be of an informative nature with less emphasis on politics. The program chairman for each meeting may ask other in the membership to help him nail down an interesting speaker. It was pointed out by Chuck Reichel that an interesting program will induce prospective members to join us. Walt Wright pointed out that we're not in a position to pay for speakers. More on this in later bulletins.

Christmas Party on December 18th - hold the date open!

*Robert Henderson
Speaker*

"WE BUILD!"

The Kiwanas Club of Healdsburg

K I W A N I S B U L L E T I N
October 23, 1979

Meeting of October 23rd: Program Chairman Dick Saxton informs us that we will listen to a talk about the stock market and how it is sometimes to our advantage to invest in it.

Sign up for the Lake Tahoe trip which is on Nov. 10th-Only \$31 per person, for a round trip. (includes transportation and an over night room.)

Meeting of October 16: And the induction of new members rolls on and on. Today Karl Esposti joined our jolly group. Bob Allen sponsored him and he ekes out a living by peddling used cars at the Chevrolet dealership owned by another member of long standing. Welcome aboard, Karl! Bill Kassin and Walt Wright did the honors.

And we welcomed the following guests: Bill Huey (guest of Carl Brigham), Bill Chuck (guest of Woodley Frampton) and Key Club Members Vince Cavallo and Phil Chub. WELCOME ALL!

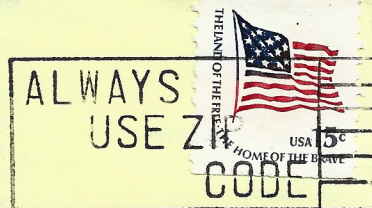

The following were fined the usual \$3.00 for their lack of foresight and having a birthday fall within the week: Ernie Biasotti, Carl Brigham, and John Uboldi. You're right, fellows, it does hurt but take consolation in knowing that all money thusly collected goes to a good cause.

And then it was noted that the Fine Pot was missing! That cost Co-conspirators Bruno Rodella and Gene Perkins a healthy sum each.

Next, President Bob's gavel disappeared! An offer of \$5.00 was made from the podium for its return, but no takers. So, somewhere in Healdsburg a gavel is wandering around loose and should it be seen its return to the office of the Federated Church would be most appreciated.

Our speaker for the day was Bob Henderson, a mechanical and nuclear engineer for the Bechtel Corp. He pointed out that Calif. will, in the near future, need 1,000 kilowats of power each year to meet its needs, and this requirement will increase as the population grows. Since the Federal Fuel Use Act restricts gas and oil being used as fuel, it would take 650 windmills located along the coast to generate the electricity needed by the State now. Geothermal energy, although an ideal of energy source, still only produces 1/2 the energy produced by an oil or coal fueled plant. Solar energy is good for space heating but is impractical to use in the generation of electricity unless it's put to work boiling water, then the steam from said water could be used to generate power. He noted that California should concentrate on using hydro-electric power due to our lack of coal. He went on to say that nuclear power is the cheapest and most plentiful and of needed by 1983 we should begin building plants now! He went on to note that the storing of used cores in lead casks underground, as the countries of Europe are doing, is safe provided that the casks are not disturbed for at least 450 years.

The Three Mile Island incident of just shortly ago was due to a mechanical failure caused by an operator's lack of knowledge. Valuable lessons were learned from this accident with efforts now being made to overcome the possibilities of another such incident.

KIWANIS BULLETIN
OCTOBER 30, 1979

NOW HEAR THIS! SIGN UP NOW FOR THE CLUB TRIP TO SOUTH LAKE TAHOE! ONLY \$32.00 PER PERSON (\$31.00 LAST WEEK? YOU HAVEN'T HEARD OF INFLATION?) INCLUDES ROUND TRIP BUS TRANSPORTATION AND 1 NIGHT'S ACCOMMODATIONS AT CEDAR LODGE, AN EASY WALK TO THE CASINOS! THE DEPARTURE DATE? NOVEMBER 10th, OF COURSE.

Now to get on with the act. MEETING OF OCT. 30, 1979: Our program this week will deal with arguments pro and con the controversial Warm Springs Dam. Since this effects us all, it's to your advantage to attend and hear how your oppsition feels about the matter.

MEETING OF OCT. 23, 1979: To start with, the bell and gavel turned up missing. No matter, the meeting got underway as scheduled (Kiwanians have always had a reputation for being able to improvise).

We welcomed John Jackson, dad of Elvin Jackson (had to see that his son was really keeping out of mischief), Jim Gentry, and Larry Durham (your correspondent wasn't able to find out how they got in).

Key Clubbers Geoff Jonas and Scott Denham were brought down from the high school by Gordon Langford. It's always good to see them in attendance; shows 'em that life isn't always serious.

Comparatively New Member Steve Humphrey has been wearing his apron since being accepted but the following unfortunates never got around to autographing it: Doc Alexander, Rev. Bill Hayes, Dave Hinton, Gery Hodges, Elvis Jackson, Earl Osborne, Bill Loofbounow (spelling?), Gene Perkins, and John Uboldi. Each helped the Club keep out of the Red by forking up a dollar. However, Collector Carl Esposti didn't know that he was supposed to collect the fines, and so didn't. Bill Kassin, his sponsor, had to cough up \$3.00 (there go the prices on used cars, way up!).

Waldo Iversen announced an Inter-Club with the Geyserville Gang on Nov. 1st (here's a chance for a "making-up" for those that need it). Ed Deas found that he had a gavel and sold it back to the Club for \$5.00. As it happened, it was the wrong gavel. Oh Well!

We sang songs. After 3 of 'em President Bob called a halt; said he couldn't stand the counterpoint!

Our speaker was Rick Lehrman of Dean Witter, who told us about stocks and how, and why, the Market sometimes takes plunges. He noted that the banks are demanding higher interest rates on loans, which will have a negative effect on the Market. He then gave a brief rundown on the types of stocks he thought would weather storms, and why. He also noted that speculative buying is down which, he said, is good sign.

He ran off the names of several companies and types of stocks (such as those of insurance companies) that would be good buys now. He also noted that insurance can now be purchased to protect your investments,
