TUESDAY EVENING

NOVEMBER 3d, '36

Get that underscored word EVENING ? Well, digest it thoroughly and report at SIX - THIRTY at Legion Hall for this particular meet/

You who may come around for a noon session to day will be found guilty of not reading the bulletin. So, SIX - THIRTY P.M. this time.

"His Nibs", the Secretary, is going to shine as chairman - by doing nothing at all. He'll be as speechless as the chief speaker himself (who is nobody at all). Just possible, however, he may award an onery attendanc prize, but even that is a little up in the air.

(ALL SET - KIWANIS "SMOHER" - SATURDAY NIGHT - VILLA CHANTICLER)

Fact is that your chairman is so completely overwhelmed at the thought of an overwhelming victory for his preferred presidential candidate that he is entirely out of equilibrium, mentally, off balance, physically, and most eccentric, politically.

Scrutinize, if you will, a picture such as this, - a man so irresponsible, so non compos and shot to pieces - and what can you expect ? Therefore, be it -

RESOLVED: That the chairman of the day be allowed to follow the course of least resistance; that nature be permitted to take her course (in him), and that something such as follows be acceptable to all - viz:

That an Al Smith "raddio" be installed in the banquet hall, whose solemn announcements shall tell us "how the East is going", and who in all probability is being elected President of U.S.A.

Won't this be SERVICE ? Come hear the news - both glad and sad.

TUESDAY

NOVEMBER 10, 1936

Armistice Day program. Legionaire de Lux, Jess Ratchford, is due to give us a talk appropriate to the occasion. Jess says it will not be lengthy; so there will be room for other members to get other matters off their chest if they like.

Paul Crabb, on Education.

The smoke of the "Smoker" has cleared away. But there are lasting recollections. The program was multi-colored, extraordinary if you please, enchanting, excentric, et cetera.

Yes, indeed. The woes of the world were wanting; everything else in superabundance. Why go into details? There might have been a dozen more from the Healdsburg club; but football takes its toll of otherwise attenders. So do election celebrations.

Now, for that "non partizan" meeting of November Third, at night. Given a Democrat for president; a Democrat for chairman; a Democratic radio, plus a rooster of like political complexion and plumage, a Landon chap inquired: "Where do you get that nonpartizan stuff"?

Functions ahead: Armistice Day to morrow. Thanksgiving and the Kiwanis Show. The Big Game, - all commanding our attention, while Roosevelt is perched on top of the globe !

Twenty five dollars for Xmas baskets; one hundred dollars for Boy Scouts Camp - latest contributions by our club. But we need a New Deal for childrens' medical attention. The directors are now formulating this. Let's sing, Happy Days Are Here Again.

FOOTBALL EDITION, SPECIAL

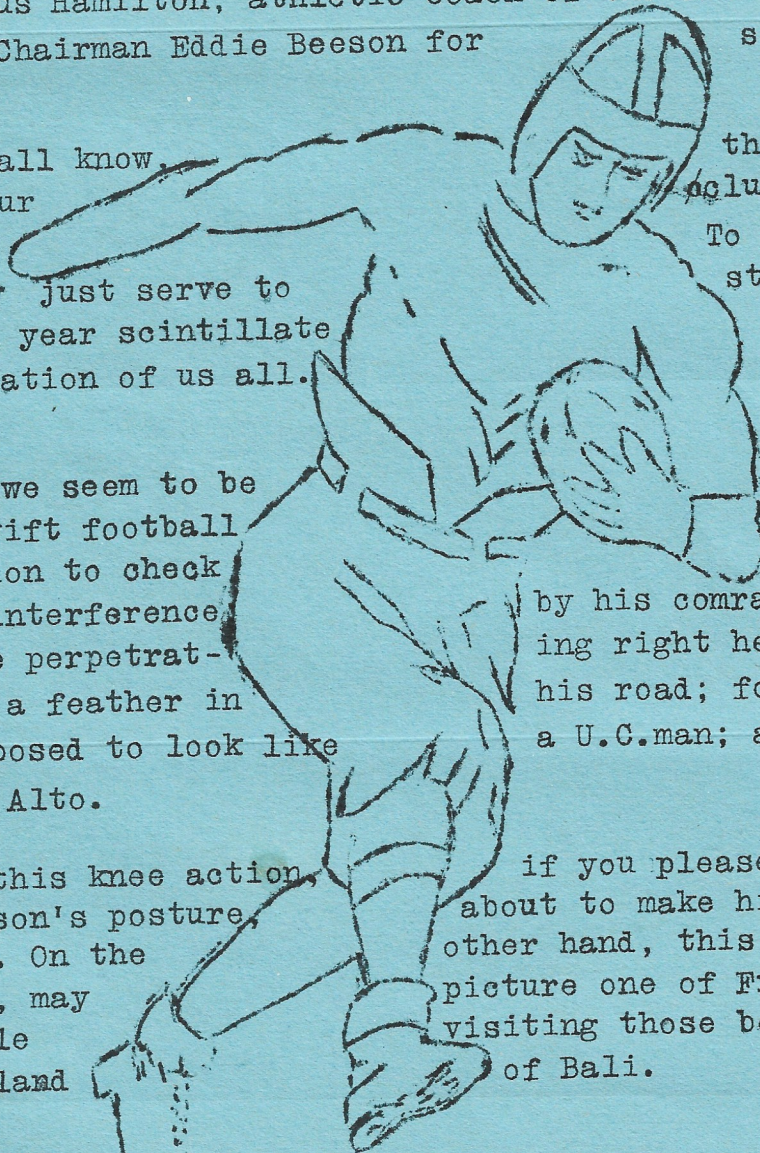

The fellow below seems to be going places. Now, who has the nerve to attempt the flying tackle? Will he find pay dirt, or is the safety man going to bring him down? Is he a Stanfordite, or a Bear? Anyhow, he and his ilk are surely the center of attention just now.

And so, to day there is going to be some forward passing of information on football, together with impressions of the recent Olympic games, by Mr. Brutus Hamilton, athletic coach of the University of California. Thanks to Chairman Eddie Beeson for securing such unusual talent.

As we all know, there are two distinct clubs, - the "Bears" and "Reds". To day's program will start the fireworks, in this club, and for just serve to which each year scintillate the edification of us all.

While we seem to be of this swift football no intention to check may need interference seem to be perpetrated - not throw a feather in He is supposed to look like from Palo Alto.

Note this knee action, Eddie Beeson's posture, high jump. On the something, may ances while on the Island

crossing the pathway gladiator, there is his onward march. He by his comrades, - not the sort we ing right here. The Builder would his road; for we are "nonpartizan". a U.C.man; and again, he may come

if you please. Doesn't it smack of about to make his world record in the other hand, this strong arm, hugging picture one of Frank Sehler's perform- visiting those beautiful native ladies of Bali.

This is the "foot" of our subject, the end of our story. OSKI WOW !

One year ago to day The Builder carried sentiments such as these:

"Yes, this is the week when all Kiwanians and other appreciative Americans give proper observance to the occasion at hand. The Pilgrim, above, first was thankful for life in a state of freedom. The other, the Redman, tho' bereft of his forests primeval, should have been thankful for a degree of emergence from barbaric conditions. All classes should recognize some things for which to be thankful".

On this Tuesday our club again is to give due observance to Thanksgiving Day, coming as it does two days later. John Stubbs, fittingly enough has been selected as Chairman of the Day. Fortunately, he has prevailed upon Father Albert A. Murray, presently conducting a mission at St. John's Church, Healdsburg, to deliver a Thanksgiving Day address.

Two weeks ago Educational Week was given due consideration, through the medium of an excellent talk by Paul Crabb, local High School principal. And being the week of Armistice Day, the significance of that memorable occasion was pictured in masterly fashion by our own Jess Ratchford. All agreed that this home program stood out as one of the best of the year.

BRUTUS HAMILTON WAS GREAT, on "OLYMPIC GAMES" and "THE BIG GAME".

At the annual meeting and dinner of the Healdsburg Chamber of Commerce, Tuesday Eve., Kiwanians were 90 per cent in attendance. Which argues for handsome cooperation in Healdsburg. Keep it up.
