TUESDAY

JANUARY 14, 1936

NINETEEN THIRTY SIX. Off again - for another cycle in Kiwanis. On again - along the pathway leading to good times and good deeds.

Behold the newly installed Harold and his hammer, trying to silence a tumultuous gang in roaring, raucous and ripsnorting ovation to his own generalissimo self.

If and when all is calm and serene; and President Harold's debut is an accomplished fact; and the severe shock has subsided, - in other words, when we get down to earth again - on goes the meeting.

Grant (Skeet) Carnegie, Big Chief, will also make his debut, as Chairman of the Day. Better bring your handcuffs, Chief, or the mob will get your goat too.

A Boy Scouts program this will be. Chairman Grant will present Louis C. "Knabe" Kahn, Scout Executive from Napa; and he will preach the good gospel of Scouting, as well "Knabe" can do.

Fitting, indeed, is such a program for a starter; for Boy Scouts, you know, are uppermost in the minds of all Kiwanis. Fitting, too, that this day's doings are under the auspices of the Scouts Committee.

The annual meeting of a week ago was another milestone on this thirteenth year of Healdsburg Kiwanians. Well attended, and well handled; but the wonder is that members and ladies survived the low temperatures of the auditorium. Surely, they were both game and loyal. Next year, no doubt, the House Committee will go over the management's head and start the fires at sunrise. And it will be well to advertise in advance, "fair and warmer".

Many thanks to our Lt. Governor Ray Grinstead for coming, with his good wife, on that stormy night to install the officers and leave with the club sound and pertinent suggestions. Success is sure for Ray.

*Jan 9. Six attended annual meet at S. R. Indalhamants.
A soiled gathering. Good time.*

TUESDAY

JANUARY 21, 1936.

The speaker for this day is Mr. James M. Morrison - so declares chairman Roy Haley. And the aforesaid master of ceremonies further deposes and says that it will no doubt turn out to be a meeting for Civic Righteousness or "what have you".

As one of the specialities Vice President John Morgan will report on the Conference of Presidents and Secretaries, at San Louis Obispo. Also, how he and that aggregation of delegates engineered from within that special Pullman car; why such a premium on their sleep, etc, etc.

That excursion eastward with the Scouts was reported in entertaining style last week by Executive "Knabe" Kahn. Said "Knabe" evidently had his hands full with his 137 boys - just as a Healdsburg Kiwanis president has, with his bunch of 40 young-old irresponsibles, ever rarin' to "go places" in a meeting.

What do you know? Ted Kellogg, DADDY! Now, what is to be expected of a man in his boots? When you read this, Ted, you'll probably realize you're on the spot. It's a boy, we understand, - a sometime Kiwanian. While we congratulate Pa and Ma, it must not end right there. Can't put that over on this bunch, Ted, without the customary costs. How much is he worth to day, Ted?

Now, as for our weekly programs for the year. What are you Chairmen going to do, - compel the editor to hound you for information, or be good and tell him in advance what you have arranged for the next week's meet? To the chairman asleep at the switch, beware of some "pittiless publicity", maybe in The Builder.

TUESDAY

JANUARY 28, 1936

Some there be who have not fully realized just what type of session, what sort of program is sometimes presented by our distinguished City Council. We who listened in at the Kiwanis meet last week were clearly "shown". No longer are we skeptics. For those of us who enjoy real comedy this legislative troupe should take to the stage, with all its talents, and in their inimitable fashion, burlesque their way thru' their circus performance in an outdoor meeting. As actors this exalted quintette are sure the real McCoys.

But that was just one of the numbers on the program of January 21st. The honorary degree of M A R (Master of the Art of Reproduction) was rightfully conferred upon "Papa" Kellogg. Hereafter Ted may wear his appropriate regalia on all state occasions. A substantial inducement, Ted, next time to qualify for a Doctor's degree.

And we must not fail to mention that excellent talk by our Mr. James Morrison, on recent constructive achievements in this city, aided and abetted by W P A and other federal alpha-numeric formulas. All in all, a meeting to be remembered.

Now, we hasten to say that Jim Bowen will act as chairman to day; and that he will have Mr. Floyd Bailey, of the Junior College as his speaker. What will the subject be? Can't tell for certain. From local experience you can expect almost anything from a man by the name of Floyd. We'll just wait for the "Dean" to do his stuff.

Times are getting good. Business is on the uptrend. Evidences as follows: Greater automobile sales; improved clearing house reports; and not the least, a swelling membership in the Healdsburg Kiwanis club. To illustrate: Returning to the fold are, Bill Massoni, Hank LeBaron, Joe McEachern. New members, Joe Cox, Rol. Luick, Warren Bronner and Ben Madison. Verily, we say unto you, BUSINESS IS PICKING UP.

"Smoker" Saturday night. More about it to day. Be there at 12-10.
