It Won't Be Long Now!

Jan 5 1937

And, of course, by this is meant the annual meeting for 1937. Just one week from this Tuesday night, viz, January 12th, at 6-30 at Legion Hall the "ladies night" will be in the spotlight.

A little information on the speaker: Walter F. Dexter is a man of many parts. Now Executive Secretary to the Governor of California; a Columbia and Harvard man with several degrees; past president of Whittier College; lecturer; author; identified with service movements. Dr. Dexter, too, is coming President of Lions International.

Your friends will want to hear this man. Invite them now, and give the House Committee the number of your guests AT ONCE. An otherwise entertaining program is in store.

We learned something last week from Mr. Brownlee, and there was much he couldn't tell us on the secrets of the crooks who raise checks, pick pockets, open safes, and otherwise function in the "field of finance" to their temporary aggrandizement, and finally qualifying for penitentiary positions. How wise! And yet, "what fools these mortals be".

Program to day? Secrecy surrounds the same. At this writing those in charge have vamoosed. Still seeing the New Year in? Gone after the big fish? Replacing that broken window? Quien sabe?

The Builder, for 1937. Same policies to be employed. Looks like the same editor; same corps of correspondents; same circulation force, same everything and everybody - unless there be some volunteers to help the cause. We are grateful for the many kind comments. And our fervent wish is A Happy New Year to all "subscribers".

TUESDAY NIGHT

JANUARY 12, 1936 7

The night we have been looking forward to for a long long time.

Lest ye forget, remember it's the big "ladies night" of the year.

Remember it's the annual meeting of the Healdsburg Kiwanis Club.

You all know that Dr. Walter F. Dexter is to be the inspiring speaker.

You have been advised, too, that the new officers will be installed.

His Nibs, the Secretary, will stand, give a page report, and sit down

There'll be music in the air.

Aside from the rank and file, Mrs. Ray Grinstead will sing sweet songs

Horseplay is, of course, to be expected.

Bring your sense of humor, together with your friends and fines.

Lt. Governor Bill Shuhaw will be there to do the honors.

And Past Governor Ray is coming to see that Bill does it right.

If you're not there at SEVEN SHARP you'll pay the consequences.

We want no dry stiff party this time. We want some fireworks.

We'll be seeing you.

TUESDAY

JANUARY 19, 1937

Behold the new President, John Morgan ! Congratulations, "Little John". Duly "inaugurated" on January 12th, John wields the gavel of authority to day, at this, the beginning of his administration of 1937. Then, too, President John will be back safe and sound from the Santa Cruz convention, under the guiding spirit of the official chaperone, the Secretary. No doubt, he'll give an account of his stewardship, as delegate.

The only Art Meese is Chairman of the Day. He will introduce Mr. R. J. McLain, of Petaluma, who has promised to give us a speel on, what do you think ? "Communism". Art, somehow, doesn't take kindly to Russian rule; neither does the speaker. Hence, we're likely to hear some explosions - from both.

Another annual meeting is of the past. One of the best in every respect, - even to attendance. The ladies say they enjoyed it. So say we all. Dr. Walter F. Dexter delivered a stirring, marvelous, inspiring address. Lt. Governor Bill Shuhaw put over the installation number in a fashion that's sure to stick.

O, yes, and that turkey dinner ! Wasn't it sumptuous ? Nothing like the gobbler for a group of gastronomic gormandizers. Thanks a million to the excellent service of the Legion ladies. All were alive in levity and song, and the presence of Santa Rosa Kiwanians with their wives, plus a number of Lions from the Bay District graced the tables, set in the form of the letter "K".

Retiring President Harold is to be congratulated on putting on an excellent program. Au revoir, Harold, your administration was a credit to the club.

JANUARY 26, 1937

A Kiwanian secretary named Quinn,
Published the weekly with a great deal of vim,
But in-flu-enza--
Stopped his cadenza,
And now he's in bed--What a sin!

Your substitute editor publishes the above, with apologies to Shakespeare, and extends to Ed on behalf of the Club our sincerest wish for a speedy and complete recovery.

With salmon romping merrily up the Russian River, it would seem that a fish story or two ought to be forthcoming from some of the bretheren. Ed Beeson says he can catch them occasionally by throwing a half hitch around their gills. There's a Robert pley for you; but Ed says it's true "s'help me".

In keeping with the occasion of the advent of our finny friends amongst us, is the program arranged by Chairman Jim Webster. Under the watchful eye of Edwin Kent there will unfold before our eyes a super collasal, and I might add stupendous, talking cinema exposing the ins and outs of the salmon industry in and about the Alaskan Coast where a salmon is a salmon and they have millions of them. You won't want to miss this thriller, whose moral is "A Salmon in the Can is Worth a Dozen in the Big Drink".
