TUESDAY

MARCH 5, 1940

Mr. H. A. Wineland, County farm adviser, is scheduled to address us to day, presumably on something pertinent to his department. Chairman, John Condit.

Due to flood forbidding conditions last week the arranged-for entertainer could not be present. And what the result? Given 30 minutes for preparation, Paul Crabb filled in with a talk on measures of general safety in such style as to command universal applause. Paul had everything that goes for a finished speech. One of the enlightening and practical kind. Which shows we have a program committee on the job and of whom we are proud.

Several couples were bent on attending the Division meeting at Vallejo Wednesday night, but again the flooded highways demurred and "quashed the proceedings." Just too bad. And were we disappointed in not meeting Governor Joe Tope and enjoying Rolly Pope's presiding proficiency?

Regular monthly meeting of the Directors this Thursday noon.

Then are a half dozen or more of our tormenting and transgressing truants going to get on to themselves and attend the meetings? These have pulled down our percentage record from the 90 bracket into the ignominious 80s. It is discouraging to all those faithful to duty. Absentees, beware of the suspension rule if you're gone again to day.

With this outburst we sign off - hoping for appearances to day.

TUESDAY

MARCH 12, 1940.

What promises to be a program of unusual interest, entertainment, thrill, will be ours to day. On the screen will be pictured John Cobb's 2600 horse power Railton Red Lion roaring over the Bonneville Salt Flats of Utah at 18.85 miles per hour! The fastest man had ever driven! A \$100,000 car in this history-making run! Chairman Elmer Smith is to be congratulated on furnishing a program of this exceptional order. Who will miss it ?

We know Sonoma County better because of Mr. Weinland's portrayal last meeting. Imperial County of Sonoma! We're proud of it.

Due to four of the Directors being out of town the regularly scheduled meeting was postponed to this Thursday, at Buffi's Inn.

As we go to press the editor's attention has been called to a bit of timely and gallant service to save the life of a local 15-year-old boy, and by the heroic offices of two of our members, one also being a member of the local American Legion Post. We refer to our John Stubbs and Jess R. Schford. John, chairman of our Underprivileged Child committee, and Jess, whose legal acumen and fast action came into play. Outstanding service, this; and more may be said on this incident through other medium. Should the boy recover from his precarious condition Kiwanis and the Legion will know how it happened.

Oaks, 10; Seals, 6. An overflow crowd. A gala day for Healdsburg. Men of Kiwanis calibre prominently figured in its promotion. Stores closed, and our band and drum corps in gaudy uniform enlivened the affair. Saturday, March 9th, shall be forgotten - not soon.

TUESDAY

MARCH 19, 1940

Organized Dentistry of America celebrates its One Hundreth anniversary at this time. Comes to day Dr. Ward Wainright, of U.C. Hooper's Reserve, to address us along the line of his profession. "Andy" Anderson, himself of eminent tooth authority, will be the pleasant, plastic, polite and painless master of ceremonies.

Our man who was to picture the fastest air flight ever didn't come last week; but we didn't need him so much after all, for our resourceful chairman Elmer Smith, filler-in de luxe, acquitted himself in glorious manner in a very understandable word picture of the event. Another sample of home talent.

He who dares to come minus the Wearing of the Green to day - let him beware of consequences. A dime will be little enough, and those North of Irelanders who may have the crust to don the orange, one buck, we'd say, will be okay. The spirit of Saint Patrick must reign to day, for who but he gave Erin that New Deal ?

What of our up-to-date new weekly bulletin which found its way beneath your optics a week ago ? Don't you guys like those nicknames ? Do you read but one side of the sheet ? Or, do you read this journalistic mail at all ? New names; new officers; new addresses; new telephones, - new everything. Hope you like it.

Walt Marshall, Daddy ! Brand new eight pound girl! Congrats, Walt; and what are you going to do about it ? A party, you say ?

AT SWEETEN BEACH, SEPTEMBER

Molly wore a little dress,

A pink one, thin, by golly;

It didn't show the dirt so much,

But gosh! it did show Molly.

TUESDAY

MARCH 26, 1940

Chairman Harold Miller bobs up serenely with the promise of a pippin of a program. Mr. John Linfors, Finland's representative Consul in San Francisco, who will tell about the final finish of the Finns at the hands of ruthless Russ.

Harold suggests; "Invite the guests." And the House Committee jeweler begs: "Phone me a collect call in advance, that we may prepare."

Home talent took time off last week - in the actual appearance of our scheduled entertainer, Doctor Wainright. And how the distinguished dentist did show up those roots and fangs and tusks, as well as the perfect grinders - upon the screen! And really, he did put teeth, inferentially, into the laws of preservation of the molars, bicuspids and incisors. Presumably, Chairman Andy, sociable cuss that he is, invites you to come up and see him sometime.

Two weeks from to day! The day when it's decided if Kiwanis retains a place in the sun with the city legislature. May the best men win. Let's get out the vote.

Daddy Walt came thru with cigars alright; and the editor got his share. We're strong for population.

Too bad to mar the color scheme with the unsightly orange on St. Patrick's Day. But the green predominated where we sat, and that helped the patriot so much.

Says the ceiling to the wall: "For God's sake hold me up, I'm plastered." Kiwanis does the lifting up as one is falling down.
