TUESDAY

APRIL 5, 1938

TO DAY: Chairman, Lee Hughes. Speaker, Mr. Hugh A. Matier. This gentleman, lecturer, anthropologist, archaeologist and patron of the Smithsonian Institute, surely should command the presence of each and every man in this club.

Moreover, what an opportunity to start aright the ATTENDANCE CONTEST! For the next six weeks is there a man who will not resolve to attend, or make up, each of these meetings? A Kiwanis crime it certainly should be if just one member were to mar our expected HUNDRED PER CENT for this short period. Come on now, fellows; let's make good.

Those song rehearsals together with George Trombley's symphony orchestra last week constituted a program worthy of Owen's enthusiastic enterprise. A REAL TREAT.

Well, boys, the never-to-be-forgotten Division Meeting, sponsored by ourselves on April 2nd - should we not say it spoke for itself? The reaction of 125 men and women seemed to indicate real success.

Our songsters did "blow their own horns"; likewise did the orchestra members. But we must be modest here. Suffice it to say that John Morgan who bore the brunt of rounding out the program; Pres. Ed. Beeson who so masterfully performed his duties; Owen Sweeten, music master de luxe - each scintillated to the Nth degree. Space will not permit individual mention of the many who cooperated in vallient fashion. Team work? Nothing but.

Presiding officer, Lt. Governor Harry Falk; District Governor, Fred Ewing; Dist. Secretary, "Kisti"; Clyde Brown; Herb Slator; and not the least, "Pete" Peterson of Kiwanis International - such a galaxy of notables to dignify and inspire! Representation by clubs - SWELL!

DOCTOR KINLEY DAY

TUESDAY

APRIL 12, 1938

To a representative of long standing in our community; a man of usefulness, unselfishness, uplifting; a lover and director of youths; of steadfastness of purpose; a fine citizen - this issue of The Builder is dedicated.

Furthermore, to day's program will be in honor of Fred Kinley, guest of honor, with such ceremonies as will fit the occasion.

Chairman Jim Coffman, old pal of the "Doc", has been selected as master of ceremonies. We understand that Dr. Dwight Barnett, veteran Scouts official of Santa Rosa, will be on hand to take an important part in the exercises.

A group of Fred's boys will come in uniform, guests of the club, and satellites revolving (or sitting) around their CENTRAL SUN.

Just another one of those programs which should bring every last man to the front during this ATTENDANCE CONTEST. We have 100 per cent to date. Let there not be a single dissenter - meaning absenter - of course.

For the benefit of our "freshmen class" let it be said that the man whom we honor to day is a Kiwanian of old - a charter member. All the more reason to "give him the works" at this time. We hope to have him again with us, and soon too. "Doc", come prepared to blush.

TUESDAY

THE MAYOR'S MESSAGE :

"I have prepared a program which I believe will be of interest to all the Kiwanians at our meeting next Tuesday.

The speaker will be Mr. Fred W. McConnell, Attorney for the City of Healdsburg, and a former member of our club.

W.R. Haley".

As a resultant of last week's city election our City Council continues to be flavored with Kiwanis spice, spark and splendor. For, be it observed that each "city dad" is or has been of our fold.

Attendant upon a prominent personage rejoining our club some-times calls for considerable complimentary ~~xxx~~ ceremony. Must be some worthy citizen, he, when the entire program smacked of what may be dubbed, "Kinleyism". The "coming back day" last week was a tribute to Fred. Thrice welcome, "Doc".

Attendance during this six weeks' period still fully up to par. A few are making commendable sacrifice to help achieve the coveted 100 per cent. Hats off to Joe Cox, for one, who is just about the busiest man in the County. When he can't be with us Joe makes up.

Benicia Birthday Party commanding considerable interest with Healdsburg Kiwanians. Looks like 10 or more to take in the big time, May 7th.

Hope all hands went to church Easter Sunday. Signing off.

Approved by committee for many a year stubbs

TUESDAY

APRIL 26, 1938

Please note first: the significant vocation of the speaker for this meeting; and secondly: the apparent sacrilegious title of his topic -

"TO HELL WITH THE CHURCH"

But don't condemn, you Onward Christian soldiers, until you hear His Reverence, T.H. Simpson (no, not R.H.), Pastor of the Portalhurst Community Church of San Francisco. Worked for three years among the lumberjacks in the logging camps of the Northwest. An eye-opener, this, according to advance notice.

Present theatrical magnate and past City Councilman (emeritus) "Larry Living(s)worth" will preside with his usual grace and equanimity.

Too bad Fred McConnell didn't have more time for his interesting theme, City Government, last week. Those extraordinary findings of a few old time Justices of the Peace should not be particularly perplexing, knowing as we do of some excentric decisions by a pseudo-modern local magistrate!

Anent our recent Division Meeting come from the higher officers who attended some very nice testimonials. For all of which the Healdsburg club is most grateful.

KEEP IN MIND BENICIA BIRTHDAY PARTY, MAY 9.

Half way through the Attendance Contest. 100 PER CENT TO DATE. Looks like a GRAND SLAM - if no one plays hookey. Last meeting two were absent, and the twain made up at Santa Rosa. Wonderful business.

\$1.50

Fined: President Ed. Beeson, Apr. 19th./Paid in full. This club does not do business on the installment plan. We keep our books in balance. Lesser penalties for lesser infractions.
