June 6/1944

Not too much definitely anent the program to day, except to state that Chairman Roy Wehr has been slightly indisposed; requests that he function at a later date; that "By"Gibbs promises he'll have something worthwhile anyhow.

"you all" will agree we had enough last meeting to satisfy the multitude for several times, and then some, to wit: George Kimble, in his deep sea diving. The "Squire" is not the only guy whom we can accost as WHAT A MAN. For self-same George is the real McCoy in his shark proof diving bell. Just sink the navies of the world and he'll float 'em all again. Let George do it.

Well, twelve of the best of us went to Oakland Friday night to show our respects to International President Don, and to demonstrate to our Governor Russ that we love him. In classy style Russ put it over (the program) as is his wont. Owen, with that glamorous glow, just made 250 throats warble, and "We Don't Work Upon the Railroad" was the solemn sonorous songfest by our bunch on the platform. What a time! What a seasonable hour to arrive home Saturday in the morning! It will go down in history.

But, let's us get down to seriousness for the minute and state that the directors will meet this Wednesday morning at 7-30 at Chanticleer on the Mountain, Morpheous being willing, to do their legislation stuff. Let's also announce that another 100 % month, May has materialized. Repeat for June, all you hungry guys who'd have a free dinner.

6/13/44

INVAJON program on last week. 1
President Neil had the foresight 1
to bring along his radio for the 1
latest reports. This, with pray-1
er and patriotic songs, made for 1
most fitting exercises. 1

On the big function in Berkeley 1
honoring International President 1
Don Rice Hick Cooley gave inter- 1
esting report - how twelve of the 1
best of us went and performed; 1
how Russ chairmanshiped the meet 1
in grand fashion; how Owen just 1
made the songsters warble. 1

----- 1
That ham & eggs directors' meet 1
last Wednesday A.M. brought forth 1
fruit - not only pears for break- 1
fast, but also \$50.00 for a sho- 1
arship, and \$150.00 for cannery 1
equipment. 1

----- 1
A hearty welcome to our brand new 1
Kiwanian, Earl Osborn, Earl of 1
Healdsburg. We'll be needing you. 1

----- 1
Don't forget, Everybody; appear 1
on the scene early to day. Also, 1
don't forget we're out for anothe- 1
r 100 % record for this June. 1

High School graduates to day
Master of Ceremonies

ROY HALEY
Guest Speaker

REV. LEO T. COGHLIN

Awarding of Scholarship & Placque

Annual gala day for the youths

COME AT 12 SHARP THIS TIME

Grab your guest girl or boy.

O, what a beautiful picture!!!
Glance at Harold Miller's attend-
ance chart on the wall. Observe
that brilliant star after each
name for April and May. Then be
proud of our hundred percenters.
WE WANT THAT FREE DINNER. We get
it by our presence in June. Who'll
spell the appetizing set-up ?

"Not I" - so say we all of us.

SHINGLES FREE - not the brand
dished out by Russ & Len. Theirs
are of the inorganic stuff, and
chea/β. Mine cost plenty, but
guaranteed to be of the non-pain-
less species. They've raised hell
with my torso of late. But they're
"shedding" now, and I'll be seeing
you all to day - says Finny.

This Ad is positively free. Ed.

6/20/44

Forty five boys & girls, graduates of our high school, sat and sang and lunched with us oldsters last meeting, one receiving the Kiwanis placque, another meriting a scholarship, - all having a good time, apparently. That address by Rev. L.T. Coghlan was on a high plane; Elmer's songs up to snuff; fines superfine; all in all a fine program.

Governor Russ & Cleone in Chicago, at the International Convention. An enviable experience for our own folks in high Kiwanis circles.

Are we to have 100 % this month? If so, five of you truants take steps to make up pronto. This is a MUST order, says Harold.

All happy to learn Finnly is back on duty again after those excruciating pains in the back.

How! we're going to miss "Holy" who leaves for the county seat. If the Santa Rosa club gets him they'll soon learn he must have come from Healdsburg.

Now comes Ira Rosenberg, chairman, pinch hitting for a pal, who first being unsworn deposes and says he has procured -

REV. BURT PAGE

who will speak to us either on Africa or South America, countries of his former abodes.

In addition, we'll have a spell from the "Squire" on War Bonds.

CITY JUDGE TO CITY COUNCILMAN *
(Order to Appear)

Herewith is a red citation To appear at Police Station Where you'll hear an explanation On our parking regulation.

Many townsmen are remarking 'Bout your wilful disembarking Where distinct is our street marking Quite against all Reckless Parking.

Least of all it is surprising That a man who's supervising The affairs about his city Should transgress - it is a pity.

Sad, the charge against you savors Not so good; and to ask favors Of this court cannot be heeded - Punishment for crime is needed.

Fail not! Come without delaying; Be sure to be prepared for paying. Healdsburg has street regulations; Fines help to meet our obligations.

Question:

Who was the guilty Kiwanian ?

5/21/44

Rather be at 20-30 "smoker" than South of the Congo. Wouldn't you? Anyhow, Rev. Burt Page found the land interesting, the natives in nature's garb, and customs quite peculiar way down thar.

Once again The Builder suggests to allocate all short side talks to the lunch period proper so that a guest speaker may have at least 30 minutes. Mr. Page could have unloaded much more had he the time.

Wonder how many are writing our Military Members. Not too many, we fear. Once again, addresses:
Lt. John A. Condit, Co. H, 2nd Bn.,
8th Inf., O 257794, APO, 4,
Postmaster, New York, N.Y.

Harold C. Sullivan, 377-40-32
Ph. M 2/c, U.S. Navy, 772,
% Fleet Post Office,
San Francisco, Cal.

Capt. Emerson Meyer,

Station Hospital, Kyndall Field,
Florida.

"Contact" letter sheets for this purpose to day.

"Development of Synthetic Rubber" will be unfolded, explained and/or expounded at this meeting, and by our own scientific native son -
BEN CUMMINGS

Ben knows his rubber as Sweeten knows his "sugar" - chemically speaking of course

LOUIE SCHWAB, CHMN.

Happy to learn our 20-30 friends, notwithstanding the heavy war ~~dra~~ draft, have weathered the storm and going strong, as evidenced by their wonderful function and feed Wednesday night. Our boys were there in good number, and some "with bells".

One of the most eloquent appeals we've heard in a long time was that made by Floyd D.D. (not exactly Doctor of Divinity) on the current War Bonds campaign. It was a honey - a word the Squire so often employs when out among 'em.

One week hence our meeting will be on Wednesday, because of the Fourth falling on Tuesday.
