The "silver tongued orator" of Sonoma County, and then some, will speak to day on Subversive Activities - none other than the Hon. Herbert W. Slater, Dean of the State Senate, Kiwanian de luxe, an' high fellow well to meet. This being the week of Independence Day, our prognostication is that "Herb" will display something of the Fourth of July spirit as well. For Healdsburg Kiwanians ever observe this significant day. Don Oakleaf, chairman.

If our homes do not burn to the ground, and if we do not get all scorched up, in some measure we may attribute such fortunate escapes to our counsellor and demonstrator last week, L.F. Lionvale, Deputy Fire Warden of California. And who has the nerve to suggest firecrackers at this meeting ?

Vacations there must be. Roy writes, "I made up on Garcia River". The next best place to Mt. Lassen. Accordingly, a couple of the tribe will soon make up on the High Sierra snow banks.

Announcing O Johnny Condit as editor-in-Chief of The Builder for the next two weeks. Many thanks in advance, John.

Aside from vacationists, attendance is a little ragged these days. Is it just plain indifference ? Are some crushed beneath the burden of business ? Heaven forbid that no one would fail to attend just because of the other fellow. Come, gentlemen, come.

Who hasn't had that picture took yet ? Call at the studio at once and do your duty, for we want that group in frame pretty pronto.

Directors' meeting a little in advance - this Tuesday night - so declares Pres. Earle. Place to be announced.

HEAR YE!

HEAR YE!

HEAR YE!

Come one, come all, to the halls of Kiwanis for laughter, song and information.

Louis Schwab will act as Chairman today. He has been fortunate to secure our County Assessor, Al Baudau, for his speaker. Al will undoubtedly give us an interesting talk concerning the workings of his office.

Dont forget to bring games for Lytton Home. A brief search in the house will be sure to bring some to light that you had forgotten the existence of. It is a most worthwhile project which will give much pleasure to others.

Those of you who have not yet had your pictures taken, make a special note to have this done today. One or two late ones will hold up the whole job.

Dr. Ed Blair will do the honors as Chairman today. His speaker will be Dr. Henry Rogers. As President-elect of the California State Medical Association, Dr. Rogers is eminently fitted to discuss his topic, which will be "Value of Organized Medicine to the Community."

Your editor pro tem has received a card from Ed Quinn. He is apparently having a great time in the mountains. Following is a quotation: "Taking delightful drives. Hiking on the rugged streams and snowballing and catching 'em."

Remember to make up your meetings while on vacation. We have maintained a splendid attendance record and do not wish to have it drop during the summer season.

Have you had your picture taken?

Back in the sanctum sits the scribe, again to broadcast to his "tribe". To part with peaks and snows and ice for one who loves such - not so nice. How come those crystals in July? Hearken for the reason why: A mile and half up towards the sky. And as those buttes grow higher, higher, what wonder does the muse inspire? Who in nature's wonderland, so majestic, thrilling, grand, so inclined to overwhelm, should not demur to leave such realm? No place for drab prosaic stuff. Yet, lest that one should shriek, "Enough", and for expression there's a dearth, we must be getting down to earth; down to the altitudes below where no chilling breezes blow; where warms the heart again for friends; duties call, vacation ends.

So, to the point, for this Tuesday, ye editor has this to say:

That Charlie Comstock, chairman, has signed up Mrs. Gertrude Pole-dard, Supt. of the Shriners Hospital for Crippled Children, of San Francisco. This lady is certain to have an interesting message.

To John Condit: Many thanks, O Johnnie, for putting out the bulletins during our refreshing, rejuvenating recreation sojourn. We just know it was a relief to the multitude to again enjoy your journalistic contributions. A couple of rainbows for you, John.

And what is more: to be rid of a pair of week after week head table officiators, to see and hear new blood perform must have been as exhilarating as the ozone of Mount Lassen. This, with apologies to President Earle, fine sportsman and companion. We're shure he will defend ^{us} on Floyd's diabolical U-Ketchum charge.

A rather unique program this time. Chairman Slim Price seems to have framed the deal. And it is this: Mr. Al. Striblow, of the Basalr Rock Company, will give us a brief speel on one of our home industries, after which all hands are to repair to the gravel works across the bridge to get a more comprehensive idea of what big business is being conducted in our own back yard. Don't worry about the time, for this excursion is not calculated to keep us from our duties longer than usual.

We owe Charlie Comstock a vote of thanks for his excellent program of last week. Not so easy to prevail upon a speaker of great responsibilities, as was in the case of Mrs. Gertrude Folendorf. A lady whose duties take her hither and yon; who not alone is Supt. of the **Shriners Hospital for Crippled Children in San Francisco**, but also **administrator of all such institutions in U.S.A., Canada and Hawaai**. An awakening discourse on the wonderful work of the Shriners.

When the roll is called to day wonder how many must still plead guilty on the charge of not posing for their mugs. We must have this "rogues gallery" in frame pretty pronto. Later on the fingerprints.

Solemn announcement of the regular monthly meeting of the Directors this Thursday. further announcement from the chair to day.

Fisherman's Exhibit No. I on the head table to day. No charge, but we think it's good for Ripley. Bring your curiosity along.

..... .. the crippled children in San Francisco, but
