We heard Mr. Wm. Flaherty say last week that Xmas sales of tuberculosis stamps thus far exceeds past performances. **Good** talk and pictures on matters tubercular.

Subject; STATE GUARD -
What's Doing Therein -

CAPTAIN OSBORNE WHITE
Display of equipment
EIMDR SANDBORN, Chmn.

Information please: This is just what Chairman Neil will ask for to day - respecting "you all" who will attend Lytton Home gathering next Tuesday evening; how many men, how many vimmens. **Very important, this. This is a MUST meeting - every member & wife & friend must signify their intention to be on hand. Our regular weekly meeting. Think of your attendance record.**

Line host, Tinnly. Your entertainment of the old and new board of directors at luncheon Dec. 1st. While it is a club tradition that the retiring president do this little thing each year, it, nevertheless, is a magnanimous gesture, A warm testimonial to goodfellowship; one of the evidences of your popular administration. Yes, just one. There are many others.

As we go to press this Saturday P.M. the annual school of instruction for officers is about to open in our town. More on this later on.

All is not well in the families of several past members - Mrs. Charlie Patchett, Joe Miller, Fred McConnell. We're not unmindful. Our expressions of condolence; our words of cheer.

Christmas at

1943

LYTTON HOME

Regular weekly meeting, 6-30, P.M. Members, wives, friends.
A night with the kiddies. A fine program will unfold itself.
Vice-president and President-elect Neil Parsons, the chairman.

December 5th, - The school of instruction for officers, in this town, was well attended and well carried out. The much mentioned "faculty" - employed in a recent issue of The Builder - did themselves proud in lecturing the undergraduates, officers-elect.

Fourteen Healdsburgers drove all the way to Vallejo, Dec. 8th, to help crown the Lieutenant Governor, Paul Crabb. This group was prepared to make the welkin ring, but somehow our "Sugar" didn't have full opportunity to put over his repertoire of songs.

Our "Prince Harold" Rosenberg, we are very happy to announce, is gradually building up, tho' having sustained a physical shock.

On this day we observe the Festival of Christmas. THE BUILDER wishes "younall" a merry one.

Fifteen minutes of instrumental and vocal music by high school talent significant of the holiday season.

Fifteen minutes' address, and by whom do you suppose? Our brand new member, Rev. Paul Maslin - Christmas sentiments.

Another Xmas get-together at Lytton Home - Tuesday evening last. And it was a pip too. One hundred thirty children enjoyed it. So did ourselves and ladies, and how! Turkey dinner simply sumptuous. Program well balanced, and well conducted by chairman Roy Wehr. "Sugar", right at his best in pulling those notes from the musical organs. What a treat to see him perform! And our club's material remembrance didn't seem to make Herb Collier mad a bit. Head table was particularly graced by Lt. Con. McMillan, Senator Slater, and of course, Governor Russ Stevens.

Fifteen minutes' address, and by whom do you suppose? Our brand new member, Rev. Paul Maslin - Christmas sentiments. What is more appropriate at this holy season, when devastating war is raging, when American lives and liberty are at stake than the following prayer, written by Past International President, Harry Karr?

OUR FATHER, in our hearts we pray for the preservation of our sons on the field of battle and that their efforts shall not be in vain. We pray for Peace, and the determination of all peoples that the horrors of war shall never again inflict the world.

We pray for the preservation of the unity of our nation our continuance as a democracy, and the preservation of those principles written by our forefathers under Thy divine guidance. Amen,

pulling those notes from the musical organs. What a treat to see

To day we bid Adieu to Nineteen Hundred Forty Three. President Linnly and his official family function for the last time. And his has been a happy administration indeed. Congratulations and Adios. With Neil and his "cabinet" at the helm, most auspiciously opens the new year.

For the program to day Chairman Era. Frandsen announces he has signed up Mr. Joseph B. Swim, toxicologist in the Coroner's office, San Francisco, Ernie's first appearance here with the gavel. Shall we give him a reception ?

We can't dwell in detail on that delightful Christmas program. That songfest by the club, Owen and Elmer leading; those carols by the high school students; Paul Maslin's impressive address - all made for a respectful observance. That galaxy of girl students, all in pure white - what a beautiful spectacle.

One week hence, January 4th, our annual get-together, ladies and out of town guests; installation of new officers; inspirational address; social function of the season. Remember the date. Be there,

Listen, Brethren, and ye shall hear - another husky benefaction to Lytton Home by our generous Kiwanian - Len Gilbert. Brig. Collier announces the receipt of such Christmas present, in the form of windows for a large building. This is genuine Kiwanis spirit.

"The Lord Loveth A Cheerful Giver."
