JANUARY 4, 1938

HAPPY NEW YEAR to you and yours.

Where we left off in '37 we start the furnace of motive power to utilize in '38.

Very soon the new set of officers will be invested with the portfolio of plenteous power. Their sphere of influence is almost unlimited.

Our brand new President Ed. Beeson will commence his "reign" flanked by auspicious conditions. What a great opportunity is given a Kiwanis club president! It is a position of which any man should be proud, - a privilege, a chance to "do his stuff". A signal advantage for doing things perhaps not afforded him in the past. And President Ed. already seems to have been captured by the true spirit for Kiwanis service.

Retiring President John Morgan graduates with laurels inscribed upon his "sheepskin". An earnest conscientious administrator, having presided with cleverness and grace at all meetings, and having piloted his ship with an even keel throughout the year's successful sailing.

To day that staunch charter member, the old Druid, Al. Garrett, puts on the first program for 1938. Captain Jack Shyyver, State traffic official, will be on hand to tell us of the responsibilities and activities in his department. Who is he who thinks so little of his good club as to absent himself from this first meeting of the New Year? What about that RESOLUTION?

We understand that our special committee on Chamber of Commerce will meet immediately after lunch in short session.

Geo. T. Jeffries, Speaker. Sec. to chief cats.

"Adventures in Snow". Chairman and Forecaster Finnly Frisch prognosticates a flurry of the white crystals falling while pictures on this subject are being projected on the screen. And so, we'll see just what grip (if any) our jeweler has upon the elements.

When asked: Who is he to do the entertaining ? we got only the empty and evasive answer - "Well known, but incognito for present purposes". The performer, it seems, is any man's guess; when asked to state more we simply learned less.

"One of the best annual meetings ever", is the reaction from each and all who attended Monday night. The program spoke eloquently for itself. The now Past President John Morgan is to be congratulated in arranging it all. John, yours was a glorious ending.

That inspiring address of Past Governor Ben Black is going on the records of the Healdsburg club as one of the very outstanding talks delivered since ~~since~~ our beginning in 1923. We all should be better Kiwanians from this time on. Absentees: to have missed this treat was just your own hard luck.

Past Lt.Governor Isador Meyer handled the installation ceremonies in a most graceful and impressive manner. Thanks a lot, "Iz". Space here will not permit going into the details of the excellent program.

Ed.Norton and his good wife rushed all the way up from the South to be on hand. Here is true Kiwanis spirit,- the stuff which makes a service club worth while. Then too, over dependable Bill Shuhaw, retiring Lt.Governor, with his better half,- right on hand.

On your dial turn to IMAGINATION, then just speculate on what may be on the cards for to day. Frank Sohler, Chairman, will have someone or something, no doubt of considerable interest to us all. Let your curiosity be your guide.

Our last program was so full with different numbers that detailed comment is quite out of question.

District Attorney Toland McGottigan's appeal for the President's Birthday party on Jan. 29th, in this city was so impressive that it has developed into a serious movement in the interests of those afflicted with infantile paralysis, and it appears that the Board of Directors have unanimously espoused the cause. "Hic" Cooley, with his augmented committee, has the matter well in hand, and we will hear more fully about it to day.

That beautiful bouquet presented by the Santa Rosa club, on anniversary week, to ours, the sponsoring club, was a mark of thoughtfulness by the boys of the County seat, and greatly appreciated.

Owen Swecton's performance as song leader captivated our group, and amounted to a real inspiration to the songsters henceforth.

In observing Anniversary Day that "leveling down process" in Kiwanis, referred to by Floyd, is just one of the valuable results in our club experiences. "On the level", "under control" - watchwords.

Paul Crabb's Romance on Skis, via moving pictures, taken in the High Alps, both thrilling and exhilarating. Yea, even EXQUISITE.
