Ted says: Future Farmers program. Mr. Steve Searcy will tell of the objectives, and Mr. Charles Grant will speak on Farm Employment.

In the past, whenever we adjourned to the big room for the program you could see a flock of "Hoockeys" scampering off in double-quick stride. Not so when "Pappy" Waldorf came to town. We stayed; saw and heard; were impressed with the big U.C. Coach, athlete, humorist and star after dinner speaker. With but the rudiments of football, one could easily grasp much of the finesse in the popular game. To Ed Beeson, thanks for such an outstanding program.

PAT: MARCH SIXTH, TUNE: JINGLE BELLS

We're off to Eu-re-ka, getting there we must;
Hear our jilloppies perking, can't see 'em for the dust.
"By" Gibbs is with our gangsters, and he is in our trust.
And so, our singing/is: Eu-re-ka or Bust.

Before our next weekly meeting will have gone and (hopefully) returned THIRTY of Healdsburg's men and mates, more or less, very likely, more. What a turn out! What a caravan! With handsome acquisitions from other south-section clubs, what a Division Meet this should be!

PERSONALITIES, to wit:

Smith River Andy - On time for meeting a few weeks ago.

Al Barbieri - Deep down in - politics.

Chuck Campbell - Likely to go wild in Eureka.

Ern Irandsen - Holds open house at conventions.

Walt Wright - Co-host with Ern at Stockton.

Jack Lewis - Loves his job, collecting the coins.

Tom Ludcke, PG&E, Raised havoc with our electric clocks.

Floyd Darty - Occasional club visitor.

Subject: Local Water Conservation
Bob Moir, Spoke

What we don't know about the set-up for this meeting could make for an immense volume. However, one fact is that "Chuck" Campbell is to be the chairman, but the more we inquired the less we discovered from this mysterious hombre. We mean, as per the event-to-be.

Another fact is that said Chuck is in Eureka with the gang. Can it be that some of those things which are transpiring up there may unfold themselves as the program progresses? Yes, could be. Surely, material a-plenty must evolve from various and colorful transactions involving our representatives in that windy city.

This constitutes an all-absorbing subject and must be treated as such - even at the expense of taking up valuable space here. The inter-club meet is scheduled for Saturday night. Now just why did so many of the bunch strike out for Eureka Friday morning? Who will have the temerity to say these were not putting on a show of their own - twenty four hours in advance of the main event?

To those of us who thought it best to stay at home: Let us be prepared to hear some incidents bound to go down in history. Let us not be surprised at unlooked for and unexpected happenings. Just to illustrate, listen to the poet-philosopher:

"If I shet my eyes and hurl a stone that kills the King of Sa
The chances are that God'll be as much surprised as I am."

Now let us all get squared away for stories we're bound to hear
to day

SPEAKER, NELSON F. SMITH

INDUSTRIAL RELATIONS FOR CALIFORNIA

At the beginning of World War I one of the allied generals addressed his Division: "We expect every man to do his damndest." Kiwanians need only a gentle reminder of non-profane duty in present campaign.

The worthy cause of which this little red picture is symbolic ever is espoused by our organization. It's just **LEST WE FORGET.**

During this campaign, month of March, we cheerfully volunteer our contributions.

We think it meet and just to make of this a Red Cross issue as much as anything else, convinced we must be ever mindful and active at a time of meritorious movement.

Yes, Healdsburg Kiwanians will do their bit as has been their wont in times gone by.

Happy to see Red Cross ace, Hick Cooley, around amongst us once more. Hick is now well and going to the bat in this campaign.

That spontaneous talk by Bob Moir on local water conservation was a humdinger, according to all accounts. Bob can talk to us any old time.

That doings at Eureka must have been pregnant with stirring events. Too thrilling to pass over. When, O when shall we hear those stories?

Subject, County Interests

At least one carload of members will accompany Lt. Governor Byron to Benicia this Tuesday night - his official visit. So far so good.

FUTURE OFFICIAL VISITS:

Benicia	-----	March 23d (Night Meeting)
Vallejo	-----	March 31st
Napa	-----	April 15th
Santa Rosa	-----	April 22nd
Sonoma	-----	April 27th (Night Meeting)
Eureka	-----	May 18th
Tortuna	-----	May 18th (Night Meeting)
Crescent City	-----	May 19th
Arcata	-----	May 20th (Night Meeting)

"By" desires and should have one car group to accompany him on each trip. Set aside your available time and advise the Professor.

Regret the passing of our old and esteemed member, Fred Cairns, "Killarney", as we called him, was a colorful Hibernian, likeable, dynamic, worthwhile. Healdsburg Kiwanians extend condolence to his sorrowful wife and children.

Be not surprised if we have some additions to, and no subtractions from, our group to day. Lapel buttons await a few desirables.

With this issue of the Builder our membership roster is brought up to date, additions and deletions accounted for. Should anyone threaten spot mistakes let him not dare to mention same. Beware the penalty.

CHAIRMAN, ROY HALEY

SPEAKER? H. J. SONER

SUBJECT, SELECTED

Economic Outlook for '48

During the week two official visits - Vallejo and Benicia - by Lieutenant Governor Byron. "By" states that a carload of fellows accompany him on all of his journeys; that such fortification elevates his Kiwanis and social spirits; that it gives inspiration to speaking efforts, and all-round good for the soul.

Nice gesture by Russ and Cleone to have our International President Charlie Armstrong meet our club officers at a home party. We are honored to receive this big man in this small town. And, Kiwanis-like, was Mrs. Armstrong at his side. They're from far-away North Carolina.

Happy to state, the Secretary has little or no trouble in collecting membership dues. A weekly bulletin should not find it necessary to harp away on bills receivable. This club has none such. Each man is fully paid in advance. Thanks, gents.

From days of its infancy the Healdsburg Club has observed all meaningful holidays. Have we slipped a cog this time? Have we forgotten Easter Sunday?

"Virtuous Walt" should shower Hick with a beautiful bouquet for so dubbing our Vice-President. Virtue is a characteristic to be proud of particularly in tempting times. Whatever the situation, Wright is never wrong.
