TUESDAY

APRIL 4, 1933

MYSTERIOUS: Such seems to be the character of the program to day. Either, The Builder doesn't know, or it is not supposed to, what it's all about. Bill Rumbold and Lieu Hall have the job in hand. Mystery surrounds the whole affair. As a possible speaker the name of Adolff Hitler has been mentioned. But he's probably get hit between the eyes for inspiring a religious persecution. "Hit", you'd better stay in Deutchland.

OTHER POSSIBILITIES: Will Rogers, it is said, may fly up from Hollywood to give us a speel. Of course, he'd be taken into camp - if he comes. Then again, Frank Roosevelt may give us a radio talk on "Happy Days Are Here Again". In any event, this promises to be a happy occasion. Not necessary to exhort you to come; for come you will anyhow - to insure our 100 per cent meetings until May 9th.

PRIZES: Two in number. Bill and Lieu have promised to just spread themselves in awarding a first and fifth. You'll be surprised - if you win. All in all, April 4th will write a chapter in local Kiwanis history. For certain it is that none of us has ever sat in on a program like this.

GOING GREAT: Thus far four meetings in the Attendance Contest; and every man has either been ther' or "made up". Wonderful spirit. Let no man mar the record for six weeks more. Let Healdsburg show the powers that be that she's among the best of 'em.

FARMERS DAY: Wasn't it a grand turn out last week? Forty, who for material salvation depend upon the soil, and as many more who till it. All on hand to hear Theodore Macklin on "Cooperation". The speaker did nobly; so did the program committee.

TUESDAY

APRIL 11, 1933

PROGRAM: Doctor A.J. Geiger, health officer of San Francisco, will address us to day on "Milk and Milk Pasteurization". Milk will never down - even in these days of three and two tenths per cent. Never there was, and never shall there be a ban on "Moo Cow" milk. It calls for little legislation or regulation. This subject will interest us all. Particularly so, because of its treatment by such an authority as Dr. Geiger. Curiously enough, our own "Hank" LeBaron, milk distributor de luxe of Healdsburg, will act as chairman of the day.

THOSE PICTURES: Strange, isn't it? how the comely little features of our baby Kiwanians should develop into such ugly adult mugs as ours at present time. It must be an instance where evolution has worked in reverse. But the pictures "took", alright, and the efforts of Bill and Lieu were repaid with striking reproductions. A pleasing departure from the customary entertainment. Originality, where shalt thou cease? With our bunch of boys - no, NEVER. So it seems.

P. G. & E.) Title of case now being tried in Kiwanis
vorsus (Court. Thus far each side has heavily scored.
STANDARD OIL) For Plaintiff, Morgan John; and for Defense,
Morgan Jim. Both litigants have attracted a full house for five sessions straight. John says he'll win; Jim says he won't. Honors are even to date. On May 9th, at 12-10 P.M. the case will be complete. Wonder if there'll be a hung jury, - in which event both sides must be given the decision. Miraculous, wouldn't be?

TUESDAY

APRIL 18, 1933

KELLOGG DAY: Ted Kellogg, from the suburbs of Kellogg town, declares that the program to day shall be distinctly Kellogg in kind, - whatever that may mean. From start to finish, from A to Z, from top to bottom, this exercise will smack of Kellogg, says Ted. And if any member thinks he can subtract anything more definite from this secretive gent than has the editor, just let him try and get it. The Builder would be tempted to publish an "Extra" carrying the latest and lowest down for this day, but Ted balks and demurs; so what are you're going to do - except come and see.

DOCTOR GEIGER: We were in luck to have this outstanding man with us last week. How he broke away from the midst of "Ambulance Chasing" in San Francisco at that particular time is a mystery. But the big man just did; and he gave us an awakening talk on the subject of "Milk" and all the trimmin's.

MAKING HISTORY: It does appear that our boys mean business - all of 'em. We're just going to have that 100 per cent record for 10 straight weeks, alright, - a record never equaled in Healdsburg Kiwanis, we believe. Full attendance to day, and for three weeks more, will turn the trick. Great spirit, this.

OBSERVATION: Parodies, burlesque, etc, are OK in song, but we doubt if these have any place in saluting the flag. A rather solemn declaration is, "I pledge my allegiance, -----" Too much liberty not so good - here. Let's be careful.

TUESDAY

APRIL 25, 1933

DOCKET FOR TO DAY:

Another man of "high degree" is to be with us to day. And who but Sheriff William "Dick" Fitzgerald of San Francisco? "Smuggling Narcotics Into Our Prisons and Jails", we understand, will be the subject of discussion. "Dick" should be well versed on the fine points of this modern and popular practice, and we'll know much about the profession when he gets his subject over. It will be Joe Cunco's debut as Chairman of the Day; for Joe, you know, is one of our baby Kiwanians, and in whom we are all well pleased.

LAST WEEK:

One of the most understandable talks ever heard by Healdsburg Kiwanians was given by Doctor W.J. Kellogg of the University of California. The subject, "Medicine and Health". It was a Kellogg program sure enough, and "Cousin Tod" as chairman scored high in his efforts.

SING IN' JIMMIE SMITH:

Jimmie who has made famous Tujunga town; Kiwanian of foremost type; comedian par excellence; entertainer at all international conventions; composer of comic songs and sayings; conqueror of all that's blue, - yes, Jimmie is with us, and his good wife too. He'll put your piano in perfect tune, then play and sing the funniest song you ever heard. Here's hopin' that "Singin' Jimmie" may be able to stay over for our meeting to day. Refreshing, uplifting, is this bard of Tujunga, Cal.

FLASH: Yes, Jimmie says he'll stay. Hip, Hip, Hurray.

ANSWER TO DAY:

Who'sa going to Vallejo Friday? Last call.
