Pictures and cool weather are boon companions - so intimates Chairman Don Jackson. Don is "agin" the sweltering of innocents of a hot day, in "closed shop", the same converted into a movie house. Accordingly during low temperatures, this week, he is putting on a show, technicolor, depicting San Francisco in her history, romance, growth, etc.

GLAD TIDINGS. Came to us last week under the escort of Roy Haley a man of parts, big man, associate of bigwigs in Washington, D.C. and elsewhere, with news that good times are ahead and that "there can't be any war." Naturally, on this point a little positive proof would not make us mad, we, the apostles of peace. Mr. Soher further hinted to us Republicans and Democrats that, if nominated, a vote for Dewey should be just alright.

Directors meet at home of Professor Gibbs this Tuesday night. We hear that some important committees will be reporting

SOLLILOQUY:

To do, or not to do: that is the question:
Whether 'tis nobler to honor directors decree
To refrain from taking arms against the multitude,
Even in the manner of substituting the more pliable projectile,
For the more deadly atomic bomb propelled within our midst.
The flesh is heir to a thousand destructive shocks.
Must any one of these be endured by apostles of peace?
Or, shall there be complete cessation of hostilities?
To rest; perchance to eat; aye, there's the rub.

Come to Kiwanis to day and learn more of San Francisco.

APRIL 13, 1948

Earl Osborn, in charge of the program, has for his speaker to day Mr. Clem L. Swagerty (sounds like Irish alright) who is Superintendent of Athletics at San Quentin.

Those pictures of life in the West Indies, including night life, naturally commanded close attention of our group of mill (?) sports, and the forward passes and sneak plays took many of us back to gridiron days of old. As usual, Standard Oil was up to standard, entertaining.

Our club has the honor of having a director , Jim Clarke, on the Sonoma County Community Blood Bank. Another opportunity and privilege for club service. More and more this is to be an important and beneficial institution.

One of the best ever directors' meetings last week at Byron's. Ours is a board of eleven. Just twice that many appeared! Business was the watchword, and lots of it. Club going strong these days.

Our attendance for March was 99.32. April is the HUNDRED PER CENT MONTH everywhere. We MUST make good.

This fateful 13th day, election day, is bound to spell curtains for a dozen candidates. Go to the polls and take your neighbor. And remember all Kivanians are pledged to cast their ballots.

Our 25th anniversary this year. Shall we celebrate ? And how!!!

Sword Fishing pictures this time - so announces Bill Sanderson.

Our scheduled speaker just plain forgot his assignment last week.

Instead, what a grand opportunity for us to listen in on how an American Communist couldn't fit into the Godless aggregation of Soviets.

Once again Earl had to "pinch" , and how he put it over ! In his original treatment our good old reliable captured his audience.

Now that Healdsburg government flopped upside down, that new blood is on the throne, that another Kiwanian has been seated on the sack of wool, Healdsburg should continue to grace the map where the Russian River and Redwood Highway meet. To Al Barbieri, congrats. Men may come and men may go; the town goes on forever.

Our Division Governor, with a carload of members, city councilmen, et al, reports a most pleasant official visit to the Napa club, Apr. 15th.

While striking off this scandal sheet a glance out the window pictures Past Dist.Governor Bill Schaper hobnobbing around with his one and inseparable Russ. Colorful Bill and his Kiwanette Ann step up the dignity of our little city as they frequently come from L.A.

We mustn't forget to mention that musical treat last meeting by Bob Taylor(trumpet) and Lorelie Holbrook (piano). Tripple tongue Bob is one and the same who really shone on the U.S.football field.

Music this Tuesday, sweet, sonorous, harmonious, melodious music - such as fifty of our high school girls and boys are capable of producing. Remember last year when a like program was presented, and what a hit it made? After lunch we'll adjourn to the auditorium for the treat. Fred Martin, chairman.

Looks like we'll make the grade of 100 per cent for April, this at the behest of the Kiwanis hierarchy.

Committee Chairmen, listen: PLEASE report to your Secretary, by letter or by lip, each and every accomplishment or uncompleted activity for the month. Work performed by an individual is credited to the club too. Had we not strenuously sought such information last year Healdsburg club would not have been given first honorable mention on our Achievement Report. We are proud of the honor, and President Earl for '47 is deserving of this credit. It was he who drafted the report. Let's go after the prize for '48.

Three honorable citizens to be inducted into the mysteries of our organization to day. These gentlemen seem rarin' to ride the goat.

What do you know about the new city officer, Al Barbieri, starting his official tenure by playing a trick on our good old U.S.A? Alright, Al, we'll take in your boxing bouts en masse - most of us.

A score or more members together with wives took by storm the big Division meet at Sonoma. Byron reports an outstanding function.

Keep in mind Benicia Birthday Party, May First. Too good to miss.
