**AROUND THE WORLD:** Frank Sohler will take us on this trip to day.  
-----  
For be it known, the Sohlers have finished the "loop" and are back to the "Burg" once more. Ours will be a quick journey - of 40 minutes or so; but how full of interest it's bound to be. More than once has the "Doc" told of his travels in interesting manner, but his story to day is sure to eclipse all past performances.

**THANKS TO GEO. IMRIE:** For 'tis he who has framed this big event.  
-----  
You know, George and Frank et al, a few short years ago, traveled together to Washington, D.C. And George still orates about their journey home via Canada, - enchanting, alluring, refreshing Canada. For to many, in this age and time, the Dominion affords some outstanding advantages; and these, who could ever appreciate more than George and Frank? Now comes Geo. N., as Chairman of the Day, challenging, as it were, the "Doc" to tell of any experiences, whether in sportive Monte Carlo, or in gay Paree, which could eclipse the pleasures and possibilities of Canada.

**COMMUNISM AND RUSSIA:** For the fourth time, last week, we listened  
-----  
to Dr. Patmont on this subject of concern. Well, why not? With Arthur Brisbane, isn't Russia an every day discourse? The praises of Soviet Russia are forever sung by the eminent columnist. Why should not the preacher, who has dwelt there, be privileged to continue to sound his warning note? The oftener the Doctor comes, the more impressed are we. All in all, an excellent meeting, that of last week.

**WELCOME BACK:** To Doctor and Mrs. Sohler: "The Builder" extends  
-----  
a hearty welcome.

TUESDAY

MAY 12, 1931

**FRANK SOHLER ENCORES:**  
----- Our own world wide sightseer just got fairly warmed up at the tinkling of the bell. Frank was indeed so good that he has been drafted to continue to day where he left off last week. One thing certain, the "Doc" should be given full time, for his message is a treat. Whoever may be the Chairman, brief need be his introduction, for much of the world now knows of Doctor Frank.

**NOW FOR THE SHOW:**  
----- Aside from the main event, this issue of "The Builder" to the exclusion of all else, stresses the HEALDSBURG KIWANIS SHOW of 1931. All else fades into obscurity. Much is expected of Healdsburg Kiwanians this very week. By their action (or the contrary) hinges success or failure. Two full houses mean victory for a student scholarship. This is one of the club's chief objectives this year. Shall we win or fall? Our answer is the individual and combined support of 40 men. For the next two days an intensive campaign will spell a substantial profit. Come to day pledged to get into the swim, neck deep.

**COMMITTEES ON THEIR TOES:**  
----- To one who has observed, this headline bespeaks the truth. For the past many ~~da~~ days these boys at the helm have sacrificed much to attain the much desired result. The wonder is if any past committee has ever more seriously took up a task and prosecuted the same with greater pep and punch and determination than the present grappling group. Does it not behoove us "laymen" to follow in line of the leaders, to recognize valient service, and otherwise do <sup>our</sup> ~~their~~ stuff?

**LAST CALL:**  
----- And so, you non-commissioned Kiwanians, better take heed at duty's call. All demurs will be denied. No alibiers need expect to command a hearing. All drones (if any) will be gassed at sunrise. And if there be one slacker up to the present time, let him get busy now, or may God have mercy on his sinful soul.

TUESDAY

MAY 19, 1931

**WHO'S WHO TO DAY:**  
-----

When the Chairman is a banker, just bank on another banker. And so, 'twill be this day.

For Rob Roy Haley, disciple of Gianini, will present H.M. (not His Majesty) but just plain H.M. Bardt, assistant trust officer, Bank of America. Whether it will be Depression or Prosperity; Banks of Sand or Banks of Gold, Roy says He's some man.

**REFRESHING STILL:**  
-----

No matter how often Frank Sohler tells of his travels abroad, still he continues to take. Of those who dwell where cloves and cinnamon grow, spicy was his story

of Tuesday last. And those selfsame natives all clad in ebony skin, plus a neckless, anklet or the like, - well, it was all very thrilling; not amazing, not astounding, in a land where nature takes her course. You're not done yet, Frank; we want more.

**ECHOES OF THE SHOW:**  
-----

We didn't make a barrel of coin. But there are memories, lasting and of pleasing sort. Artistically, a success; socially, the occasion for family and friendly assemblage, - ever wholesome and happy in-kind. Then, too, was that hitherto

unknown local talent, brought out from latent repose - and just because there was a Kiwanis show. Lots of other things too, but space is at a premium here. Just a word anent one headliner, ---

**PASHA JIM:**  
-----

What a role for our own solemn, sinless, sanctimonious Jim Bowen. Would that J.C. Penney could have listened in, or gazed upon his local manager "In a Turkish Harem". Like the canary

in that catchy song, he'd surely have CIRCLES UNDER HIS EYES, or sumpun.

**SUBJECT FOR THOUGHT:**  
-----

Is the Kiwanis Show in Healdsburg to be, or not to be, a permanent institution? That is

the question. All in favor say AYE. Reponents NO.

TUESDAY

MAY 26, 1931

**PROGRAM TO DAY:** This is John Flover day. That is, this well known man comes again to interest us, as he always does. We all know John, know of his life work; and it is a foregone conclusion that something akin to probationary work will be discussed. Fred Kinley is Chairman, and he files a serious and solemn requisition for 40 minutes time. Forty minutes, and nothing but, says Fred.

**RETURN TO THE FOLD:** The old bunch is pretty well collected together again. First came Frank Sohler, back from the sights of Siam, from Jerusalem the Golden, from the haunts of Cleopatra. Then came strolling in, Earl Adams by name, fresh from the Hula Hula extravaganzas of the once Sandwich Isles. Last, not least, one Albert Garrett, our Convention delegate to Miami. In his report next week, when Al hits the high spots, - well, 'twill be a hit alright.

**TRUST THE TRUSTS:** Mr. Bardt last week told us they were OK. Guess it must be so. "In trust" seems to be a secure and popular place, these days, for our personal effects, wills, deeds and the like. The talk was clear enough-- except to Bill Rumbold, of course. Whereupon, the pudgy Bill, curiosity minded, took it upon himself to cut loose with a questionable question, deleted right here. Imagination, where is its bounds - with some hombres such as Bill?

**MEMORIAL DAY:** Another national holiday falls this week. Such a day as this should call for our attention. Is the speaker of the day to dwell upon its significance in part, or who shall say an appropriate word? We have been amiss to our duty in this respect. We should pause on these occasions and give heed to their full significance.
