Well, this will be something different. No foreign talent to day. Why should we always go abroad when we have such performers, platformers, as Messrs. Huddart, Miller, Kellogg, and the like? Fact is, in the order named these speakers will spout on prunes, dehydration and river dam. What a galaxy of local lugs! Make your reservations while the making is good, for with this broadcast there's likely to be a heavy draft upon the multitude.

Dr. Charles Hedges said he came, not to make a speech, but to "get acquainted". Well, he did both, and we now know more about what's doing at the County hospital under the new administration.

Two GOVERNORS met; Were they from North & South Carolina? And what did they say - in that confab? Anyhow, Abe Leach was again a welcome guest; and his idea of the advantages in a small club was borne out by our own intimate associations. Great pair, this: Abe plus Russ.

Directors' meeting this Thursday Eve at Andy's. Remember.

Nice Memorial Day sentiments by Jess. Kiwanis never forgets to observe.

You'll be reading this prior to this Monday Night's meet with Santa Rosa boys at Mark West Springs. "By" says: Give it a good bulletin blast". Alright. Meet at Legion Hall at SEVEN. There'll be transportation for all. Be on time. If you don't want a good rollicking time - then don't come. Inter-club meet.

Chairman Roy Haley writes as follows:

"To day it will be our pleasure to have the members of the graduating class of the Healdsburg High School as our guests. This meeting is an outstanding event in our Club each year. The Kiwanis Scholarship and the Kiwanis Plaque will be awarded.

Roy Haley will be the Chairman of the Day and will furnish the attendance prize. Mr. Moffat Dennis of the Federated Church will be the speaker.

The Senior Chorus, accompanied by Bill Foote at the piano, will sing "Farewell to Dreams." Period.

-----

This is one of those times for the Reception Committee to be on their toes, seeing to it that the youthful guests are properly parceled out amongst our members at the tables.

-----

Hugh Brunk argues that water should be given its proper place. BUT, at last meeting Ted Kellogg argued ~~that~~ <sup>that</sup> too much of the stuff should not be stored above any dam structure across our Russian River, and Harold Miller explained the process of taking the oxygen-hydrogen compound out of Irish spuds. In perfect keeping with such preachments someone (wonder who) touched off a huge pile of kindling in the fireplace. Result: Dehydration of humans! Fifty evaporated, wilted, Coatless Kiwanians!

-----

Six good reports of committees. How about the balance ?

Still thinking of that delightful session, June 12th, when Young America were our guests - the high school ~~graduating class~~. The bountiful luncheon, joviality; awards of Kiwanis trophy and scholarship; songs by student chorus, also by the club; finally, a most appropriate talk, "What Shall We Believe", by Rev. Moffat Dennis - all made for a well-rounded and memorable program. To Chairman Roy Haley, thanks, appreciation.

For the program this Tuesday none other than Mr. Rex Turner, Lieutenant Governor of Division Two, will be our guest speaker. This should eloquently speak for a program of real class. Many of us know Kiwanian Rex. He's just alright.

Honoring our gathering last week was Mr. Arthur Rude<sup>1</sup> who promises to be a valuable acquisition to our community. Magnanimous was his substantial contribution to the Kiwanis scholarship bestowed upon a deserving girl. Expecting for her, sometime, the M.A. Degree.

Generous gesture was that of Mervin Daw, Santa Rosa Kiwanian, who last week again gave his annual "at home" in his hidden hills' country home. Several Healdsburgites found their way tither and "participated". Next thing to a division meet, but slightly different. Details "laid on the table". Good time by all.

Come to day to see and hear Rex Turner.

*Morris Judy - Speaker*

Lieutenant Governor Rex Turner was depended upon last week for an oration on Kiwanis and not found wanting. Fact is, his was one of the best offerings we heard for one long time.

Mr. Horatio (At the Bridge) Stoll will preach the gospel of the California Wine Institute at this get-together. Mr. Gilbert, chairman. Bill Massoni, distributor of cau de vis - we hope, we hope.

President Byron, wife and family, took good care of Rex, wife and family during their sojourn here. That's the way Healdsburg Kiwanians do business with distinguished guests.

Of course, as always with us, the speaker was given respectful attention. Other than that the boys' behavior was just fair. That damn practice of throwing things across the table is vile.

This day's attendance will spell VICTORY or defeat for another three months' perfect score. Also, will say yes or no for a celebration repeater. Better be there, meaning YOU.

Must applaud Master Don Frediani's piano offerings last week. A second Uda Waldrop (also a Healdsburg product) is little Don. Most of the rest of us specialize in chin music.
