TUESDAY

SEPTEMBER 6, 1938

How California can obtain enduring peace in employment relations will be explained to the club to day by Mr. Gerry Watkins of San Francisco, who will speak in behalf of the California Committee for Peace in Employment Relations. This gentleman and his organization are ardent advocates of the initiative measure dealing with this subject on the November general election ballot.

Many voters from Sonoma County have subscribed their names with more than 200,000 others of our State, to the end that sit-down strikes, secondary boycotts, mass picketing, etc, ^{be banned.} Furthermore, the movement is calculated to establish a legal definition for the courts of California of what may constitute a legal strike and legal picketing. (The editor must halt right here for a night of sleep. Continued to the morrow).

This bright and cheerful Tuesday morning at seven. Carnival structures all moved on, clearing the pathway to our meeting place at noon. Lonely looks the town. Festival over. Queen Alta reigns no more. Gone is the fire eater; the human balloon; the four legged girl; and all the bustle and hubub of a Labor Day celebration. Down to earth again.

Announcing: Two brand new Kiwanians come in to day - two fine young sons of Italy, by extraction - Arthur Rafanelli and Charlie Scallioni. Give 'em a hand.

Charlie Comstock, chairman. He'll get an ovation too. Be there.

TUESDAY

SEPTEMBER 13, 1938

GENTLEMEN: and this includes all within scope of the definition, if you will only be patient until news is flashed concerning the program for to day. possibly you may read in the last paragraph something "toughin' on an' appertainin'thereto". This, a la the last shall be first and first shall be last.

If, at the present moment, we cannot forecast the coming event, at least, we well know what happened last Tuesday. A stalwart brawny man, double-fisted as it were; Gerry Watkins, on a big subject (PEACE IN EMPLOYMENT RELATIONS), strong of voice and smoothe in articulation, He's for Amendment No.One. Passage of same is calculated to show the sit-down striker just where not to sit down, plus other things.

Several visitors well up in Kiwanis circles, together with the Past Chief of Police of Berkeley, August Vollmer, were here with ears to listen and eyes to see, respectively. And both sets of organs had occasion to function throughout the hour and twenty minutes. Hi-jinks? Plenty. And under the heading, "Down to Business", all were calm, cool and collected.

Baby Kiwanians, Arthur Rafanelli and Charlie Scalioni, you are dually, or duly, welcome into our fold. You both will have those much coveted Kiwanis buttons to day - when you receive the second degree.

Hats off to John Stubbs who drove down to Santa Rosa all alone Thursday to make up. A few of our stray away sheep might have followed this Good Shepherd of ours.

FLASH! Paul Crabb to day - in a monologue - by the pedagogue.

TUESDAY

SEPTEMBER, 20, 1938

No other than His Honor "Home On The Range" Judge L.E. Fulwider, of Santa Rosa, will be here to address us on the American Constitution. Well versed in the history of our country, of analytical mind and musical voice, we may expect a real oration to day.

And for the Chairman ! The oldest young merchant in town; the man whose oral language, if put into print, would amount ~~at~~ to spicey reading; the punster who explains just when our membership is 42, and when it's 43. Superfluous it should be - the mention of his name.

Most unfortunate, just as the editor was due for a solo he had to leave for Santa Rosa - a calamity that this number had to be passed up. And he missed Paul Crabb's speech, no doubt a dissertation on education.

One by one they're coming back : Comstock, Bray, Gilbert, Kinley, Schwabb - all within the year. And to make the process more complete, Roy Henderson will be with us again next week; Ira Rosenberg soon to follow. This magnetic club of ours!

Criminal procedure on a forgery charge seems to be in the offing. The once law abiding member will have as fair a trial as is possible in our Kiwanis Court. But justice must be had . Let's purge the calendar from this case and put the wretch where he belongs. Prosecution and Defense, are you ready ?

TUESDAY

Some of us hie to the High Sierras in the good old summer time and bring back GREAT BIG FISH, as Nimrod Exhibit No. L. But Finley, Floyd, et al. whip the Klamath lakes and streams and bring back piscatorial pictures instead. It is said, however, these are good - very splendid indeed.

To day these will be projected on the screen. Scenes of sportdom, colorful contributions of Isaac Walton kind give promise of something highly refreshing and rejuvenating. "The Squire At His Best" is to be the outstanding portrayal.

The American Constitution, subject of last week, was ably handled by Judge Fulwider, talking from the shoulder - just like the chairman Al. Garrett orates when he has the floor on any old occasion.

Tuesday, October 11th, at 7 p.m., Sonoma Grève, conference for the purpose of nominating a candidate for Lieutenant Governor for 1939. Attending shall be: Club President and Past President; All past Lieutenant Governors; and, of course, our present Governor, Harry Falk. OCTOBER ELEVENTH, AT SEVEN. Keep this date open, ye officers.

Nominating Committee: Beeson, Garrett, Rosenberg, Marshall, Killingsworth - Are you all on the job?

Anniversary Committee: Darby, Stevens, Norton, Coolcy - To visit the Napa club - How about it?
